

Windmill Stamina 18% High Solids Emulsion Polish – 5L

Variant code: 03-891

A metallised polish for strength and durability coupled with ease of removability. Non-yellowing cross linked polymer film.

Does not discolour even the lightest floor.

Produces a deep shine with excellent slip resistance. Responds brilliantly to all spray burnishing techniques.

For all linoleum, P.V.C., rubber, sealed cork, sealed wood, terrazzo and thermoplastic floors. N.B. Not suitable for unsealed wood, unsealed cork or laminate flooring. Always try the chemical in a test area first. For commercial use only.

Coverage: 60sqm per litre

Property	Value
Fragrance	Characteristic
pH	8
Dilution	Use neat in a thin film
