Windmill Synergy Biological Degreaser Cleaner - Trigger Spray Bottle/Head - 750ml - Windmill Refill - Blue

Variant code: 14-750SDB

The **Windmill Synergy Biological Degreaser Cleaner Refillable Trigger Spray Bottle** is a practical **750ml refillable bottle and spray head** designed for use with the Windmill Synergy Biological Degreaser Cleaner refill system. Providing a convenient way to dispense cleaning solution onto suitable surfaces, this reusable spray bottle is ideal for professional cleaning and maintenance applications. Available in **Blue, Green, Red, White and Yellow**, it offers a choice of colours to support workplace cleaning requirements.

Featuring a **trigger-operated spray head**, the bottle allows cleaning operatives to apply a compatible degreasing solution directly to the area being treated. Its **750ml capacity** provides a practical size for everyday cleaning tasks, while the refillable design allows the bottle to be replenished from a suitable Windmill Synergy cleaning solution supply. The colour options can also support **colour-coded cleaning procedures**, helping organisations distinguish between bottles allocated to different areas or cleaning tasks.

Designed for **commercial and professional cleaning environments**, the Windmill Synergy Trigger Spray Bottle provides a reusable dispensing solution for regular cleaning operations. Supplied with a **trigger spray head**, it is suitable for use by cleaning contractors, facilities management teams and housekeeping personnel. The bottle is intended for dispensing compatible cleaning products and is **supplied without cleaning liquid**.

Product Features

- **750ml refillable trigger spray bottle** for professional cleaning applications
- Designed for use with **Windmill Synergy Biological Degreaser Cleaner**
- Supplied with a **trigger spray head** for convenient application

Applications

The **Windmill Synergy Biological Degreaser Cleaner Refillable Trigger Spray Bottle - 750ml** is suitable for professional cleaning operations in **offices, schools, hotels, commercial kitchens, hospitality venues, retail premises, workshops and facilities maintenance environments**. Designed for use with compatible **Windmill Synergy Biological Degreaser Cleaner refills**, the bottle allows cleaning operatives to dispense solution during routine surface cleaning and degreasing tasks. The choice of **Blue, Green, Red, White and Yellow** supports workplace colour-coding systems, helping cleaning teams allocate different bottles to designated areas or tasks. For safe and effective use, fill only with the appropriate compatible cleaning solution, follow the product manufacturer's dilution and handling instructions, and ensure each bottle is clearly labelled with its contents. Do not mix different cleaning chemicals in the same bottle.
