

Windmill Synergy Cleaner and Degreaser – Biological Degreaser Cleaner Water Soluble Sachets – Pack of 150

Variant code: 07-882

Windmill Synergy Cleaner and Degreaser is a professional **biological degreaser cleaner** supplied in convenient water-soluble sachets for simple, accurate dosing and effective cleaning performance. Developed using biological cleaning technology, the formulation combines powerful cleaning agents with naturally occurring microorganisms to break down grease, fats, oils and organic residues, helping maintain cleaner surfaces and reducing the build-up of contamination over time.

The water-soluble sachet format eliminates manual measuring and helps ensure consistent dilution, reducing product waste and simplifying stock control. Designed for use across a wide range of commercial and industrial cleaning applications, the formulation penetrates stubborn grease deposits while supporting environmentally responsible cleaning practices. The biological action continues working after application, helping break down residual organic matter and contributing to improved hygiene standards in demanding environments.

Suitable for kitchens, food preparation areas, commercial premises and general facilities maintenance, this concentrated cleaning solution provides an efficient and practical alternative to traditional degreasers. The **easy-to-use sachet** format improves operational efficiency while helping users achieve consistent cleaning results across multiple locations.

Product Features

- **Biological cleaner and degreaser** for professional applications
- Supplied in convenient **water-soluble sachets**
- Helps break down grease, fats, oils and organic residues
- Biological formulation continues working after application
- Eliminates the need for manual measuring and dosing

- Supports consistent dilution and cleaning performance
- Supplied in a **pack of 150 sachets**

Product Benefits

- Improves cleaning efficiency through accurate portion control
- Helps reduce product waste and overuse
- Supports cleaner and more hygienic working environments
- Assists with the removal of stubborn grease and organic deposits
- Reduces preparation time for cleaning operatives
- Provides a practical solution for multi-site cleaning operations
- Supports environmentally conscious cleaning programmes

Technical Characteristics

- Biological cleaning formulation with active microorganisms
- **Water-soluble sachets dissolve** completely during preparation
- Suitable for routine and intensive degreasing tasks
- Designed for professional commercial cleaning environments
- Provides **consistent dosing** with every application
- Suitable for use on **compatible washable hard surfaces**
- Store in a cool, dry environment away from moisture

Applications

Windmill Synergy Cleaner and Degreaser is ideal for commercial kitchens, food preparation facilities, catering operations, hospitality venues, industrial workplaces and facilities management environments where grease and organic contamination are common. Its biological cleaning action and convenient sachet format make it particularly suitable for routine maintenance programmes, helping operators maintain high standards of cleanliness while simplifying chemical handling and dosing procedures.

Property	Value
Fragrance	Pleasant

Property	Value
pH	8-10 1 % dilution in water
Area of Use	Hard Surface or Floor
Dosing Chart: 5L Dilution	Dosing: 1 Sachet
Dosing Chart: Trigger Dilution	Dosing: 1 Sachet
CLP	corrosive
How to Use	Dissolve 1 sachet in 5L of water for mopping or 1 sachet per trigger spray bottle for spray-and-wipe cleaning, then clean the surface and allow it to air dry.
Chemical Colour	Green
Eco Product	Yes
Damp Mopping	Add 1 sachet into a 5L bucket of water, allow contents to dissolve. Clean floor with mop.
Spray and Wipe in Trigger Spray	Add 1 sachet per trigger spray bottle, allow contents to dissolve. Spray onto surface and wipe. Allow to air dry.
