Windmill Synergy All Purpose - Cleaner, Sanitiser and Air Freshener - 750ml (Previously Valiant)

Variant code: 06-580

Windmill Synergy All Purpose is a multi-functional cleaner, sanitiser and air freshener designed to deliver **effective cleaning, hygiene control and odour neutralisation** in one application. As part of the Windmill professional cleaning range, it provides a versatile solution for maintaining clean and fresh environments across a wide range of commercial and institutional settings.

The formulation combines cleaning performance with sanitising action, helping to remove dirt, grease and general soiling while reducing the presence of bacteria on surfaces. At the same time, it works to neutralise odours, leaving a **fresh and pleasant fragrance** that enhances the overall environment. This makes it particularly suitable for areas where both hygiene and freshness are essential.

Designed for ease of use, the product is supplied in a **ready-to-use format**, eliminating the need for dilution and allowing for quick application. It is suitable for use on a variety of hard, water-washable surfaces, including worktops, door handles, tables and general fixtures. Its versatility makes it an efficient solution for routine cleaning tasks, reducing the need for multiple products.

Product Features

- Multi-purpose **cleaner, sanitiser and air freshener**
- Removes dirt, grease and general soiling
- Provides **sanitising action for hygiene control**
- Neutralises odours effectively
- Leaves a **fresh fragrance** after use
- Ready-to-use for convenient application

Product Benefits

- Combines three functions in one product
- Reduces need for multiple cleaning solutions
- Supports high standards of hygiene
