Windmill Victory Foaming Washroom Cleaner RTU - 750ml

Variant code: 05-286

Windmill Victory Foaming Washroom Cleaner RTU is a ready-to-use cleaning solution designed to deliver **effective removal of soap scum, dirt and washroom residues** while maintaining ease of use and consistent performance. Manufactured under the Windmill brand, known for professional cleaning solutions, this product combines convenience with reliable cleaning action, making it suitable for routine washroom maintenance.

The **ready-to-use (RTU) formulation** eliminates the need for dilution, allowing for immediate application and reducing preparation time. Its foaming action enables the cleaner to **cling to vertical surfaces**, increasing contact time and improving cleaning efficiency on tiles, walls, sinks and fittings. This ensures better coverage and more effective breakdown of deposits compared to traditional liquid cleaners.

Designed for versatility, the product is suitable for a wide range of washroom surfaces, supporting both daily cleaning and spot cleaning tasks. The foam formulation helps reduce run-off, ensuring that the product remains where it is applied, improving overall performance and reducing waste.

Supplied in a **750ml format**, Windmill Victory Foaming Washroom Cleaner RTU is ideal for quick-response cleaning and regular maintenance in environments where convenience and hygiene are essential.

Product Features

- Ready-to-use **foaming washroom cleaner**
- No dilution required for immediate application
- Foam formulation **clings to vertical surfaces**
- Removes **soap scum, dirt and washroom residues**
- Suitable for **tiles, sinks and fittings**

Product Benefits

- Saves time with **ready-to-use application**
- Improves cleaning efficiency with foam cling action
- Reduces product waste by minimising run-off
- Supports consistent cleaning performance
- Suitable for routine and spot cleaning tasks
- Helps maintain clean and presentable washrooms

Technical Characteristics

- Suitable for use on **washroom surfaces and fixtures**
- Designed for direct spray application
- Foaming formulation for improved dwell time
- Compatible with cloths and wipes
- No dilution required
- Use in accordance with manufacturer guidelines

Applications

Windmill Victory Foaming Washroom Cleaner RTU is suitable for **commercial, industrial and institutional washrooms**, including offices, schools, healthcare facilities and public buildings. It is particularly effective for cleaning **vertical and high-contact surfaces**, where foam application improves coverage and performance. Its ready-to-use format makes it ideal for **daily cleaning, spot cleaning and rapid response tasks** in high-traffic environments where hygiene and efficiency are essential.
