

Windmill Wash Wax Cationic Car Shampoo – 5L

Variant code: 06-890

Modern advanced car shampoo formulation.

Deposits cationic film to protect paint and repel water. Promotes fast streak free drying. Gives “just polished” water beading properties to forecourt cars.

Dries faster than a regular car shampoo enabling car to be quickly polished.

Product is best applied out of direct sunlight.

How to use:

Method 1 : Dilute two tablespoons of Pearl with 10 litres of warm water into a bucket (1 part Pearl to 300 parts hand hot water.) Apply the solution generously with a sponge or cloth.

Method 2: Pour some Pearl concentrate directly onto a wet sponge and apply neat to the vehicle. Rinse vehicle with clean water and allow to dry.
