

# AUK Supplies Ltd Carbon Reduction Plan

Publication date: September 2023

## Commitment to achieving Net Zero

AUK Supplies Ltd is committed to achieving Net Zero emissions by 2050.

## Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

|   |                                 |
|---|---------------------------------|
| <b>Baseline Year: 2024</b>  |                                 |
| <b>Our baseline year has been noted as 2024 due to our restructuring of the business, the relocation to Heathfield Industrial Estate during the second part of 2023.</b>  |                                 |
| <b>This relocation provided us with an opportunity to address our commitment to achieving Net Zero by 2050, allowing for a more formal plan, together with the acquisition of the tools needed to record and monitor our activities. Our relocation to one site has given us more control over measuring and monitoring, from our previous multi-site set up.</b> |                                 |
| <b>Baseline year emissions:</b>   |                                 |
| <b>EMISSIONS</b>  | <b>TOTAL (tCO<sub>2</sub>e)</b> |
| <b>Scope 1</b>  | No Recordings available         |

|                                      |                         |
|--------------------------------------|-------------------------|
| <b>Scope 2</b>                       | No Recordings available |
| <b>Scope 3</b><br>(Included Sources) | No Recordings available |
| <b>Total Emissions</b>               | No Recordings available |

## Current Emissions Reporting

|  |                                 |
|--|---------------------------------|
| <b>Reporting Year: 2024 – As part of our relocation and acquisition of reporting tools, we will not have any carbon reduction saving data until the baseline year level.</b> |                                 |
| <b>EMISSIONS</b>   | <b>TOTAL (tCO<sub>2</sub>e)</b> |
| <b>Scope 1</b>   |                                 |
| <b>Scope 2</b>   |                                 |
| <b>Scope 3</b><br>(Included Sources)   |                                 |
| <b>Total Emissions</b>   |                                 |

## Emissions reduction targets

In our endeavours to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years by 30%

## Carbon Reduction Projects

### Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2023 baseline; however, these have not been measured in terms of carbon reduction. Therefore, the carbon emission reduction achieved by these schemes equate to is not known or the percentage reduction.

To date our carbon reduction projects (without data to support) are as follows:

- ISO 14001 certification
- Signed up to the adoption of LED lighting controls.
- Reduction in company travel, replacing with remote virtual meetings where practical.
- Introduction of Windmill refill systems
- Introduction of hybrid vehicles
- Digitalised picking process and delivery PODs, eliminating paper

In the future we hope to implement further measures such as:

- 100% electric vehicle fleet (when this is feasible for multi-drop deliveries)
- Introduction of carbon off-setting initiatives, i.e. tree planting etc

## Declaration and Sign Off

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>1</sup> and uses the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>2</sup>.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>3</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

## Signed on behalf of the Supplier:

Name: Matt Besley

Position: Director

Date: September 2023
